

The following lidar image shows 6 vehicles around the ego vehicle as encircled in black color. You can see the truck with the trailer going in one direction while the five other vehicles are going in the other direction. Four of the vehicles going in the other direction are behind the ego vehicle while one of the vehicles is ahead of the ego vehicle. The trailer attached to the truck is clearly noticeable in the lidar image. Also it is easy to see the car bonnets as well as the trunks of the vehicles in the vehicle outlines in the lidar images.

Additional five vehicles in a different frame:
